Dear Sir:-

I think I would like the specimen of which you write if the price is right. You neglect to state in your letter as to that item. If you are to be in Montpelier some time I would prefer to wait till I can see the specimen. Please write me more particulars.

Dear Sir:-

Your letter directed to me at Montpelier has reached me here. I regret to say that I know nothing about the White Ibis of which you inquire. My correspondence with Mr. Collins was wholly about algae.
